El Kurdi, Dakahlia, Egypt

Frontend Developer specialized in building responsive web apps using React, TypeScript, JavaScript, and Tailwind CSS. Experienced in creating clean, interactive UIs with a strong focus on user experience and performance.

Work Experience

Frontend Developer (Personal Projects)
Oct 2024 - Present

Self-Employed | *Remote*

Built 4 self-initiated projects using React, TypeScript, Firebase, and REST APIs and more. Simulated professional workflows including Git version control, UI/UX planning, and testing. Projects include a holiday platform, a Quran recitation app, a weather app, and an AI-powered translator.

Projects

The Holiday HQ
Oct 2024 - Nov 2024

A JavaScript web application that fetches holiday data from an external API and displays country holidays with a real-time countdown.

Hady Al-Quran
Dec 2024 - Jan 2025

A JavaScript web application that lets users stream Quran recitations verse-by-verse with translation, tafsir and multiple reciters to choose from.

The Forecast
Feb 2025 - Mar 2025

A TypeScript web application that fetches real-time weather data from an external API and displays the weather based on user location with the ability to choose location manually.

LinguAI
Jun 2025 - Aug 2025

A React + TypeScript web application that provides real-time AI-powered text translation using Gemini API. It uses Firebase Authentication to manage Login/Signup and stores user translations in Firestore.

Core Skills

Web Development: HTML, CSS, JavaScript, TypeScript, React.js, Tailwind CSS, Firebase, Firestore, Responsive Design, Front-End Development

Software Engineering: Software Development, Software Design, Object-Oriented Programming (OOP), Testing

Tools: Git, GitHub, Figma

Education

Modern University for Technology & Information - MTI   Oct 2020 - Jul 2024

Bachelor's degree Computer Science

Languages

Arabic *(Native)*, **English** *(Professional Working Proficiency)*

Interests

Game Development, UI/UX Design, Learning new frameworks, Learning about tech and hardware
